### Access

The [Australian performers in UK pantomimes PROMPT files may requested by eCall-slip](#) and used through the Library's Petherick Reading Room. Posters are available through the Pictures Reading Room.

## Arrangement

Pantomime material is arranged in the Library's PROMPT collection alphabetically by title. Each sequence is then chronological by year and then by month, week or day with all dates based on evidence in the programs, posters or other related ephemera.

An index to performers and performances is provided at the end of this document.

Entries in this finding aid are listed chronologically by performance date and with national flags indicating country of performance, then sorted alphabetically by title of production and then place of performance. Holdings are then detailed as follows:
