Price List

No. 38.

All Previous Lists Cancelled.

The prices in this list are subject to alteration without notice.

Payment may be made by Cheque, Postal Order or Cash, or goods sent by V.P.P. post or C.O.D. rail.

Postage and Rail charges must be added with all orders.

Country Orders receive special attention and care, and are dispatched the same day.

Please add exchange to Country and Inter-State Cheques.

SPECIAL

With the next V.R.A. Meeting at Williams-town, we would suggest that you send down, or bring in, your rifle as early as possible.

This will give us an opportunity of giving you better service.

Delays are annoying, but sometimes, with the stress of work over the few days just prior to Christmas, it is practically an impossibility for us to get the work through in the time allowed.

Our Mr. Smith handles every job personally, and, as a result, the amount of work which can be handled is necessarily limited.

We feel that we can assist you better in your rifle troubles, if we get your rifle early.

It is to your advantage to get the best possible shooting out of your rifle, and it is our endeavour to do everything possible to assist you towards this aim.

Of Interest to You!

Alcock & Pierce like Edwards & Motton have specialists and practical men in charge of each Department.

TENNIS.

We have Rackets made by all leading makers to our own specification and can guarantee satisfaction.

GOLF.

Our Golf specialist personally selects our new models each season.

SHOOTING.

We have agencies for guns by the following world-famous makers:

BROWNING
BOSWELL
ARMSTRONG
WESTLEY RICHARDS, etc.

Also Agencies for rifles by:

BROWNING F. N.
STITZ GOLD SEAL.

Stocks of all other standard rifles kept in stock.

Our affiliated firm, Alcock & Pierce Pt. Ltd., 318 Little Collins Street, Melbourne, issue separate catalogues for:

SHOOTING
FISHING
TENNIS
GOLF
FOOTBALL & RUGBY
CRICKET

Enquiries welcomed for all Sporting Goods.

LES SMITH.

King's Prize Winner, Sydney, N.S.W., 1932.
and Grand Champion, 1932.

He is at your service when you call
for your requirements.

During the past few years, rifle shooting has grown considerably in popularity. Young Australians want to shoot, and is given every encouragement to do so. The increasing accuracy of shooters, both veterans and those comparatively new to the sport is due to several improvements which have been recently introduced.

Mark 7 Ammunition plays a big part in the improvement, but the introduction of the "Central" fixed arm Sight and later the Bisley model Central Sight, with the patent Bisley extension plate giving rigidity to this very necessary part of the rifleman's equipment, is perhaps the most important factor in the improved accuracy.

Marksmen acclaim the "Central" as aptly named, and the list of successes which grow with each successive King's Prize meeting bears testimony to their claim.

This catalogue has been compiled to give you as much detail as possible about all classes of rifleman's gear and we feel sure that you, as shooters, will be interested in its contents.

Should you require any further information on shooting we will welcome your enquiries.

RIFLES.

S.M.L.E. Rifle, fitted with new Short, Heavy Lithgow Barrel, complete with Backsight, Polished Stock	£5 15 0
S.M.L.E. Rifle, fitted with a second-hand Light Barrel, complete with Backsight, from	£4 0 0
Second-hand Converted Rifle, fitted with new, Short, Heavy Lithgow Barrel ..	£3 15 0
Second-hand Converted Rifle, fitted with a good, second-hand barrel, from ..	£2 5 0

PARKER RIFLING.

With the alteration of the times, and the increased cost of importing barrels for .22 calibre rifles, the system of Parker-rifling, which is a form of re-rifling the barrel, has come into particular prominence.

A. G. Parker, of England, has been recognized for many years as the leading Rifle Accessory people in the world, leading as they do in the .303 field, and being looked upon as authorities on everything appertaining to Target Shooting.

Some years ago they introduced an idea whereby the old barrel was drilled out to receive a rifled tube, which was sweated into the barrel, and when finished off, made the shooting qualities as good, if not better, than in the original rifle.

We have been fortunate enough to secure the Rights of this Parker-Rifling in Australia, and we have much pleasure in offering to users of .22 calibre rifles, this outstanding service.

mia/275828/R . 8.1.2014

Practically any .22 calibre rifle can be drilled out, and a new tube inserted. The cost is low, the results are, to say the least, remarkable. Many shooters who have had their rifles Parker-Rifled have not been slow to advertise the fact that the rifle is now shooting better than when new.

The Parker-Rifling process in our workshops is in charge of Mr. Les. Smith, King's Prize Winner, and recognized rifle expert, who supervises every rifle which goes through our works, and we guarantee that all work done is definitely reliable and efficient.

When the rifling in your rifle wears out therefore, do not discard the rifle or the barrel. Let us have the complete job, and we will Parker-rifle it for you, and you will be more than pleased with the results.

PRICE OF PARKER-RIFLING, practically all standard models — from 32/6.

When once a Rifle has been Parker-rifled, it can be Parker-rifled again without any trouble, as the drilling has already been done, and it is only a matter of heating the barrel, taking out the old tube, and inserting a new one. Do not forget **ALCOCK & PIERCE PTY. LTD.**, and **EDWARDS & MOTTON** are the accredited Parker-Rifling experts of Australia, and hold the rights from A. G. Parker, England.
